Concerned Civic Groups:

The Second Precinct is experiencing an ongoing pattern of daytime residential break-ins in the Jericho, Syosset and Woodbury communities. The follow up investigations seem to indicate that they are being committed by a combination of individuals, one of which is usually a dark skinned female. They appear to be watching their intended target area from a vehicle and approach a house after the occupant(s) are observed leaving. It is quite likely that they ring the doorbell and upon no answer, they will force entry into the residence from the rear. A white 2002, Ford Taurus with Pennsylvania plates has been observed at a prior incident. We are urging residents to take note of their block as they leave their homes during the day with special attention to unfamiliar parked autos with multiple occupants. Should you encounter these circumstances, call "911" for a prompt police response to that location.

Yours truly,

Richard A. Meyer  
Inspector  
Commanding Officer  
Second Precinct
